

Suspension roller SRO

## Suspension roller SRO

- ❑ **Application :**  
For suspension of ADSS cables of Ø 25 mm maxi on short spans.
- ❑ **Characteristics :**
  - Reel : UV resistant thermoplastic
  - Body: Hot dip galvanized steel.
  - Bolt : Treated steel
- ❑ **Installation :**
  - With pig tail bolt BQC on pole brackets or consoles.

PVC spiral protection

- ❑ **Additional PVC spiral protection anti-wear:**  
It is recommended to install the PVC spiral protection around the cable at the level of roller to avoid a possible premature wear by rubbing. (about 30 cm)

The PVC spiral protection is available on different sizes.
